## Useful Class Information

### Skill Levels

Each class is listed as an **Open**, **Beginner**, **Intermediate**, or **Advanced**. These levels are listed on each project's description page.

- **Open** means that it is suitable for all skill levels and could have a general prerequisite.
- **Beginner** indicates that the participant need not have prior experience with wheat weaving, and there are no prerequisites for the class.
- **Intermediate** means that the participant has a moderate amount of prior experience working with straw, and there could be some prerequisites for the class.
- **Advanced** means that the participant has had extensive prior experience with straw art, there are more specific skills needed in order to succeed in the class, and there will be prerequisites.

### Prerequisites

- Before signing up for a class, it is necessary to carefully check the prerequisites for that class.
- Prerequisites are skills in straw work that the instructor is requesting that the participants already have, as they are necessary for the project but may not be taught in class.
- The purpose of prerequisites is to give each participant the opportunity for success and to facilitate a smooth flow of the class such that the project is more likely to be completed in the allotted time.
- Adherence to the prerequisites is important. If you do not understand the prerequisites, or if you do not meet them, please contact the instructor.

### Pre-work

- Some classes may require some pre-work in order to complete the project in the allotted class time.
- Please be sure all pre-work is completed before attending the class.

### Materials/Kits

- Some instructors will have kits for their class. Each kit will list the supplies included, and the student will bring any other supplies needed. Kits will be handed out in class.
- Students are required to purchase the class kits. **Please bring the exact amount to each class.**
- Instructors will be notified by the Registrar with the number of students in their class once registrations are completed.
